This document visually demonstrates SEA Digital's verified educational process — from registration and payment to course completion and certification. All visuals represent real system functionality verified by SEA Digital Bridge Co., Ltd.

Step 1 — Registration

Customers register an account by providing their name, email, and password on the SEA Digital platform.

This account will be used to access all purchased courses, consulting sessions, and digital materials within the SEA Digital system.

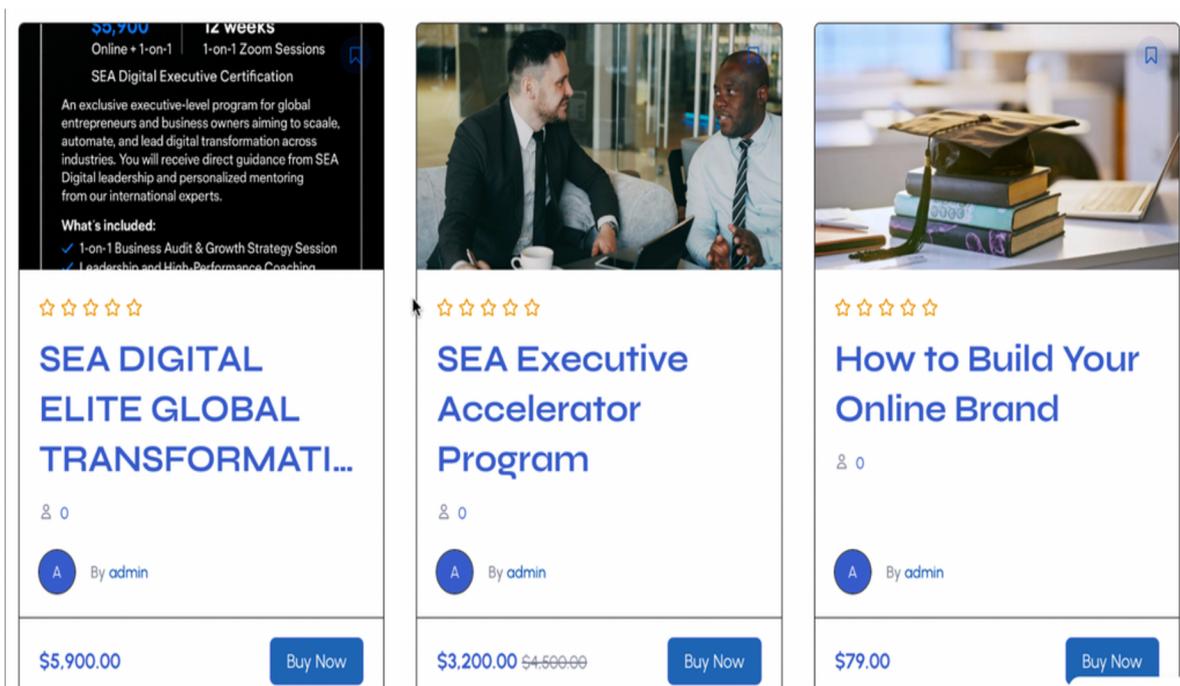

The screenshot shows the SEA Digital website's registration page. At the top, there is a navigation bar with the SEA Digital logo, links for Home, Education, About, Courses, Blog, Faqs, and Contact, and buttons for 'Enroll Now' and 'Dashboard'. The main content area contains a registration form with the following fields: First Name, Last Name, User Name, E-Mail, Password, and Password confirmation. A 'Register' button is located at the bottom of the form. A 'Chat with us' button is visible in the bottom right corner.

Step 2 — Course / Service Selection

Users browse the available SEA Digital courses and consulting programs, then select the one that best fits their professional or personal goals.

Each program includes detailed information about content, duration, and pricing, helping users make an informed choice.
